

i do not want the do not call list overturned in indiana. I use to have a chase manhattan bank credit card and they are the worst bank at calling their customers every week trying to get them to sign up for some service they offer. I dropped their credit card for that reason. Now that they have bought huntington bank and bank one they want to start calling me again. Please do not let them have their way. I pay for my phone I should have a say in who uses it. If they choose to call me they should pay me a fee to be applied to my bill.
